

## MotionRocket PointStreak API Interface

### PointStreak Baseball

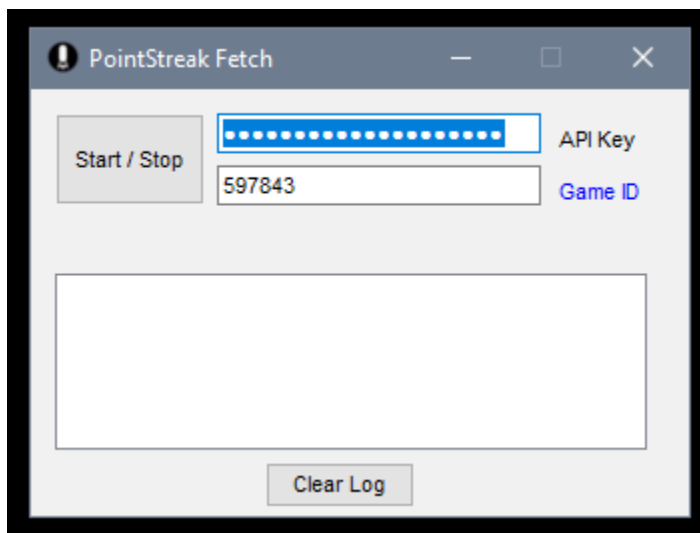

#### Overview

This application is used to poll the boxscore of a certain game from the PointStreak Stats API.

The returned data is written to the local user folder as an XML file.

#### Usage

In order to use this utility, you will need an 'API KEY'(provided by PointStreak).

Enter API Key and GameID

#### Finding Current GameID

Click the "Game ID" label to be brought to [baseball.pointstreak.com](http://baseball.pointstreak.com).

Select schedules.

## Boxscore

final | 

ended to:

03:15 PM

final | 

final | 

final | 

final | 

Click the link under 'Boxscore' for the upcoming game.

[baseball.pointstreak.com/boxscore.html?gameid=597249](http://baseball.pointstreak.com/boxscore.html?gameid=597249)

The URL under boxscore for that game contains the gameID required.
